**PRODUCT
GUIDELINE**

Our experienced Design and Development teams closely follow the latest trends, ensuring that our ongoing product development is targeted and tailored to our customers needs. We develop our own collections on an ongoing basis, collecting inspiration from all over the world and delivering a continual stream of innovation.

We can provide a complete service from fabric, yarn and trim sourcing, mood boards, design sketching and focused sample preparation. And of course, we are happy to develop from your own tech packs.

We offer a wide product range from our broad manufacturing base. We are aware of the importance of delivering the right product into store, at the right time. Each of the above product categories are covered by at least two producers in our portfolio. This versatility allows us to enjoy a varied handwriting as well as manage supply chain risks and protect the interests of our clients.
